

Mini Wireless Keyboard & Touchpad

Step Away from the Screen

2.4 GHz
Wireless Connectivity

32 ft.
Range of Connectivity

From the classroom to the boardroom, interactive technology has changed the face of presentations.

Technology has made it easier than ever to communicate clearly and collaborate with confidence. But how effective is an interactive display if you're shackled to the front of the room for the entire presentation? With the Clear Touch™ Mini Wireless Keyboard & Touchpad, you gain the freedom to move about and interact with your audience while still controlling every detail of your presentation. Change slides, type notes, zoom in, zoom out, and highlight important information--all from up to 32 feet away. Compatible with all Clear Touch Interactive® panels as well as a wide range of interactive panels, laptops, tablets, smart TVs; this versatile, wireless solution gives you the flexibility to present information however and wherever you want.

Key Benefits

The Clear Touch Interactive® Mini Wireless Keyboard & Touchpad enhances your interactive panel by allowing you to control your presentation from distances of up to 32 feet. The keyboard's 2.4 GHz wireless connectivity and USB adapter allow users to connect to a variety of devices with ease.

Seamless Versatility

If you need to type a note on the screen or search the Internet, the full QWERTY keyboard allows you to enter text without returning to your PC or laptop. Then, with the simple touch of a button, the device converts to a classic touchpad for easier screen navigation and control.

Convenient Compatibility

Compatible with all Clear Touch™ panels, the Clear Touch™ Mini Wireless Keyboard & Touchpad also expands the presentation power of a wide range of devices.
